The 4 required books for this course will be available for purchase at the UF bookstore and online. If you have any problems in buying the books, please let me know as soon as possible. The course books are:

- *Three Generations, No Imbeciles*  
  Called Three Generations in syllabus  
  Paul Lombardo  (2009)

- *For the Betterment of the Race*  
  Called Betterment in syllabus  
  Stefan Kuhl  (2013)

- *Eugenics: A Very Short Introduction*  
  Called Eugenics in syllabus  
  Philippa Levine  (2017)

- *Oxford Handbook of the History of Eugenics*  
  Called Handbook in syllabus  
  Bashford & Levine (editors)  (2012)

This course will examine the history of eugenics, both in the United States and in an international context, emphasizing the interactions of science, technology, and social forces from the mid-19th century to today. Though there will be a significant amount of lecture material, this course will emphasize an interactive relationship between professor and students. It is therefore incumbent upon students to come to class prepared, by both reading the assigned materials & thinking about their meanings & their relationships to the broader themes of the class. There is no attendance requirement for this class. However, since the course depends on personal interactions between students & professor (and among students themselves), it is your best interest to not only come to class each day, but to come to class prepared each day. Class participation makes up 30% of your grade, and since the first part of class participation is coming to class, you will not get a good grade if you do not come to class!!

Students will be required to read the assigned readings & be ready to discuss them during the class period. There will also be a series of short assignments, designed to keep students focused
on the course material. Information on those assignments will be given during the first 2 weeks of the semester. Finally, there will be a 15-20 research paper on a topic of the student’s choice, due at the end of class. The topic will be selected after approval by the professor. This paper will be due the day & time of the scheduled class final, Wednesday, December 13th from 10:00 AM- 12:00 noon.

Grades will be assigned in the following manner-

<table>
<thead>
<tr>
<th>Assignment</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>

Due to the increasingly technological nature of our society, I find it necessary to address the issues of cell phones in class. Please turn off all of these electronic devices before coming to class, as they are disruptive to the learning environment and distracting to other students. Thank You.

I also need to address tardiness to class in a more formalized manner. Lateness is also disruptive and distracting to a positive learning experience. Therefore, I urge you, as responsible adults, to arrive to class on time ready to learn. Again, your cooperation is appreciated. Thank You.

Students requesting classroom accommodations for disability issues must first register with the Office of the Dean of Students. This office will provide documentation to the student who then must provide this documentation to me. I am more than willing to do whatever is necessary to ensure an optimum learning environment for all students.

Please be aware of the University’s policy on plagiarism. The Internet has made this situation more problematic but understand that plagiarists will be caught. Any questions about what constitutes plagiarism, please do not hesitate to ask. All plagiarism offenses will be reported on a Faculty Adjudication Form and forwarded to the Office of Student Judicial Affairs. You may get more information on UF’s Judicial Affairs process at
