Interactive Readings and Lectures

Interactive Readings and Lectures make use of the collaborative annotation tool, Perusall.

Perusall helps you master readings faster, understand the material better, and get more out of your classes. To achieve this goal, you will be collaboratively annotating the textbook with others in your class. The help you'll get and provide your classmates (even if you don't know anyone personally) will get you past confusion quickly and will make

the process more fun. While you read, you'll receive rapid answers to your questions, help others resolve their questions (which also helps you learn).

You can start a new annotation thread in *Perusall* by highlighting text, asking a question, or posting a comment; you can also add a reply or comment to an existing thread. Each thread is like a chat with one or more members of your class, and it happens in real-time. Your **goals** in annotating each reading assignment are *to stimulate discussion by posting good questions or comments* and *to help others by answering their questions*.

Research shows that by annotating thoughtfully, you'll learn more and get better grades, so here's what "annotating thoughtfully" means: Effective annotations *deeply engage points in the readings, stimulate discussion, offer informative questions or comments, and help others by addressing their questions or confusions*. To help you connect with classmates, you can "mention" a classmate in a comment or question to have them notified by email (they'll also see a notification immediately if online), and you'll also be notified when your classmates respond to your questions.

For each assignment, we will evaluate the annotations you submit on time (see below). Based on the overall body of your annotations, you will receive a score for each assignment as follows

- 5-4 (Meets Expectations) = This student has not only done the reading or viewed the lecture, but has actively engaged with its main themes, completed the annotations and responded to classmates' annotations thoughtfully, and participated in the discussion in such a way that demonstrates a command of the material.
- 3-2 (Improvement Needed) = This student has completed the readings or lecture material and the annotations and responded to classmates' annotations, but may have done so cursorily; participates in discussions in a way that demonstrates satisfactory but not excellent engagement with the material.
- 1 (Deficient) = This student may or may not have completed the reading or lecture material, and the annotations and responses to classmates' annotations do not reflect active engagement with the themes of the text/video; the student does not participate in the discussion, or minimally participates but does not demonstrate engagement with the material.
- 0 (Deficient) = This student did not turn in an assignment, or the assignment demonstrated only superficial and incomplete annotations.

For further details about how Perusall annotations will be scored, review the help guide: [How is annotation quality defined in Perusall?Links to an external site.](#)

Tips for Success

Taking a course online can be a lot of fun! Here are some tips that will help you get the most of this course while taking full advantage of the online format:

- Schedule "class times" for yourself. It is important to do the coursework on time each week. You will receive a reduction in points for work that is turned in late!
- Read ALL of the material contained on this site. There is a lot of helpful information that can save you time and help you meet the objectives of the course.
- Print out the Course Schedule located in the Course Syllabus and check things off as you go.
- Take full advantage of the online discussion boards. Ask for help or clarification of the material if you need it.

- Do not wait to ask questions! Waiting to ask a question might cause you to miss a due date.
- Do your work well before the due dates. Sometimes things happen. If your computer goes down when you are trying to submit an assignment, you'll need time to troubleshoot the problem.
- To be extra safe, back up your work to an external hard drive, thumb drive or through a cloud service.
